**候選人三號**

姓名： (中) 盧業威  
(英) LO YIP WAI

畢業年份  
及班別： 2009 年(5B)

個人簡介：

**Self-Introduction**

I am the graduate of Class of 2009, when our campus still located in Sun Chui Estate. I am a graduate from the University of Hong Kong in 2017. My professional is Education and my major is Chinese Language and Literature. I am a registered teacher in Hong Kong, however I am not working in Education sector right now. I am working as an administrator in the Hong Kong China Chamber of Commerce.

I was a naughty and trouble student and caused a lot of troubles for the teachers back when I am the student in STTSS. Despite the fact that I failed to become a model student, the memories of my secondary life are always the best. Running around the corridors, shouting outside the classrooms, playing computer games in MMLC instead of working on my Technology homework, preparing the props and steps for Sports Days, all these great memories construct my secondary school life. Now, I am an adult and struggling in my career, but I am always wanted to contribute my alma mater and create the same good learning environment, atmosphere and also good memories to current Tsung Tsiners. That is the reason of my wish to take up this post for the next 2 years.

Although I did not serve in a secondary school management team before, I have similar experiences when I was an Undergraduate in HKU. I was the member of different University Governance Committees, including the Searching Committee of the Next Education Dean in 2015-2017, Discipline Committee in 2015-2017 and the Career Advisory Board in 2015-2016. I believe these experiences would help me in serving the School Management Team of STTSS.

As we all know, Mr. Cheung is going to retire soon. STTSS would have a new headmaster. Since the growth of reputation of STTSS around the society, I believe there will be more and more challenges ahead. I sincerely ask for your trust and believe, empower me as the alumni manager for you in the STTSS Management Team, to serve every one of you and STTSS. I believe together, we can construct a better place for the next Tsung Tsiners and also to set a role model of schooling in Hong Kong society.
