SCHOOL DEVELOPMENT PLAN
FIVE-YEAR PLAN (2007-2012)**

I. SITUATIONAL ANALYSIS

Our Strengths

- The school will have a new campus with well-structured facilities in 2010
- The school has a sound administrative hierarchy
- Information technology devices have been upgraded
- Teachers are experienced, well qualified and professional
- Adequate support and training are provided for new teachers to refine their teaching skills
- There is a strong collaborative culture among teachers
- Relationship between teachers and students is good
- Students have a high moral standard, a high level of willingness to learn and a strong sense of belonging to the school
- There is strong support for student development
- The school offers a wider variety of NSS subject choices for students

Our Weaknesses

- Space and facilities are insufficient
- There are only two form six classes
- Teachers have a heavy workload and insufficient rest
- Students can be more self-motivated

Our Opportunities

- As an IMC School, the school will receive more funding
- The government provides financial support to the school

Our Threats

- The New MOI Policy exerts uncertainties
- Administrative workload for teachers is getting heavier under the education reform. This in turn lessens the time for teaching and counseling work and hinders their professional development

II. SITUATIONAL ANALYSIS

1. Strengths

- a. Visual Arts is a very interesting and creative subject. The learning atmosphere is joyful so most students are willing to learn
- b. The Visual Arts Room is well-equipped and the newly established Arts and Technology Room has been set up as a Macintosh computer room so as to facilitate students in the learning of computer art
- c. The subject teacher is professional and rich in teaching experience, and she is willing to learn and improve her teaching
- d. This is an elective subject so all students taking this subject have a certain level of interest and ability
- e. There is a number of visual arts school clubs in the extra-curriculum such as Visual Arts Club, Ceramics Club, Comics Club, Chinese Painting Club, Chinese Calligraphy Club and Photography Club which enhance the students' interest and art-making ability
- f. As the teacher knows the importance of making good use of external resources, she always arranges for students to take part in art activities organized by external art associations so as to broaden their horizons, such as joining the Artists Residence Scheme

2. Weaknesses

- a. Because of the curriculum integration of Art, Music and Home Economics subjects at junior level, the teaching time of Visual Arts in junior level is shortened, so there is doubt whether students can have a good foundation in visual arts when they want to take Visual Arts as their elective subject

- b. Under the pressure of academic subjects, students spend more time studying these subjects. They will then spend less time doing the Visual Arts works
- c. Students' participation in internal and external competitions needs to be more active

III. OBJECTIVES

1. Develop students' perceptual skills and other thinking skills such as observation, association, imagination and creativity
2. Through art making and appreciation, students can grasp the knowledge, techniques and the process of art criticism in context
3. Enhance their art appreciation ability
4. Through using daily life events as art making theme, students understand the art context
5. Motivate students to participate in arts and cultural activities
6. Nurture students to care for, respect and treasure the eastern and western cultures
7. Enhance the ability of using information technology in art making
8. Enhance the ability of art making and generic skills such as communication skill and critical thinking
9. Promote the visual arts education and enhance the visual arts atmosphere at school
10. Enhance the quality of learning and teaching
11. Employ verbal and written skills to communicate feelings and ideas
